E89AMSW

Unit shall be a Moffat electrically heated proofer and holding cabinet E.T. L listed (UL Std 197) and NSF listed (NSF - 4). The proofer and holding cabinet shall have a stainless steel interior and stainless steel top and sides. Proofer cabinet shall be fully insulated with a single stainless steel door and full viewing window. Door shall be field reversible. Unit shall have capacity for up to 16 half size sheet pans or 8 full size sheet pans. A single speed fan shall gently and evenly circulate air around the proofer cabinet. Cabinet temperature shall be controlled by a thermostat and humidity via a humidity sensor and control. A thermometer shall indicate the cabinet temperature. A single element shall heat the cabinet with an additional element heating water in the water tank. Proofer and holding cabinet shall be mounted on casters, fixed at the rear brake and swivel at the front. Proofer and holding cabinet shall operate independently or in combination with Moffat's Turbofan model E32 or G32 convection ovens. Proofer and holding cabinet shall be fitted with a NEMA 5-15P cordset.

CONSTRUCTION

8 pan capacity
Stainless steel front and sides
Field reversible full view door
Full stainless steel door handle
Stainless steel racking system
Accepts half or full size pans
Fully insulated
Stainless steel control panel with overlay
Door condensate collection drawer

CONTROLS

Off/Proof/Hold switch
Mechanical thermostat
Variable heat 32°F to 185°F
Variable humidity
Cabinet temperature thermometer

CLEANING AND SERVICING

Easy clean surfaces
Removable racking system
Removable water tank
Access to all controls from front panel
Full access side service panel
No tools required to replace lamps

OPTIONS

Steam pan racking kit
Double stacking kit

SPECIFICATIONS

Electrical requirements
110-120V, 50/60Hz, 1P+N+E, 1.5kW, 12.5A
NEMA 5-15P cordset fitted

Water

$\frac{3}{4}$ " thread
80psi max inlet pressure
20psi min inlet pressure
